LINERO 2000

Design creates order. Useful and at the same time innovative accessories are a great help for the cook and does every kitchen credit. Ideal for using the recess adequately. With this system, which can be extended without limits, you achieve attractive accents when planning your kitchen. Yet there supposedly exist cooks who simply find it practical ...

With a lot of
love for detail.

A classic since several years. Here again we find the combination of form and function, quality and design so typical of Kesseböhmer. The flexible system can be extended by numerous practical household aides without problems. A special highlight, for instance, is the 3-level roll holder. Its patented rocker makes it possible for users to tear off recalcitrant plastic wrap. This is just one of many examples for an entire series of nifty ideas.

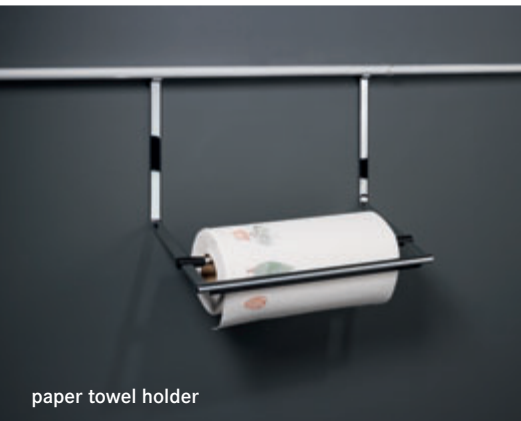

coffee bag holder

quiver holder

spice rack/2-tier
